The Only Perfect Bench Wringer Made.

Knowing the difficulties we have experienced in the use of Tub Wringers, in changing them from one tub to the other and and the lifting of tubs, making it almost as laborious as wringing by hand, we obviate all of these difficulties by placing on the market our *new* Perfection Folding Bench Wringer with Cogs and Reversible Water Table. It saves all lifting and changing of tubs, and furnishes a double Wash Bench, which, when not in use, folds up in less than six inches space. The trade will readily see that our combined machine will meet the wants of the public. It is made of hard wood and is the best for the following reasons:

1. The machine has double steel bow springs.
2. The Rolls are Vulcanized on the shaft and White Rubber.
3. The Rolls never concave or get loose on the shaft.
4. The clothes can be reversed from either tub instantly.
5. The only Wringer that always wrings right-handed. The crank can be attached to either side.
6. The strongest and firmest Bench.
7. The Bench and Wringer are combined.
8. The closest fold of any Bench Wringer made.
9. The operator can wring a handkerchief or a quilt without readjusting.
10. The Wringing can be done from one tub to the other without changing.
11. The tubs are not liable to be injured or upset.
12. The Model of Convenience—THE PERFECTION.

PRICE.....each, $4 85.

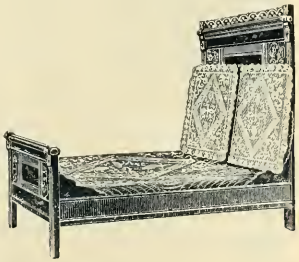
THE HOLDER.



DAY.

Best Pillow-Sham Holder in the Market.

Adjustable; fits any bed; has an attachment to fasten the Ruffle or trimming to, which no other lifter has. As a Mosquito Bar Support it has no equal. Shams will last much longer, as they do not have to be touched or handled with the hands, and one motion elevates the Shams, and they can be put in place with one motion. No lady will do without them after once using them.
